

PRODUCT OVERVIEW

# LeasingAI

Empower your onsite teams to focus on renters, while Elise manages the rest.

✦ Sent by AI

Eliminate repetitive tasks like responding to prospect inquiries and scheduling tours. LeasingAI is the only AI solution designed to automate 90% of your leasing team's workflows, rather than simply notifying them of tasks.

### Faster Lead-to-Lease Conversion

Drive leads through the funnel faster by automating prospect communications, tour scheduling, and more.

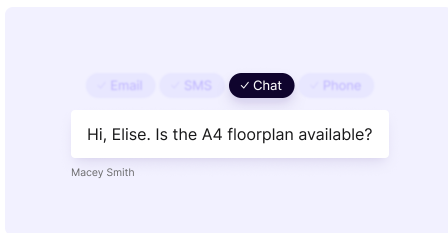

### Consistent & Prompt Responses

Ensure consistent communication across all asset types with AI assistants tailored to each specific community.

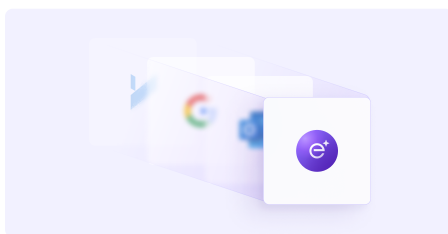

### Prioritize In-Person Experiences

Your AI assistant manages prospect communications, enabling leasing agents to deliver exceptional in-person experiences.

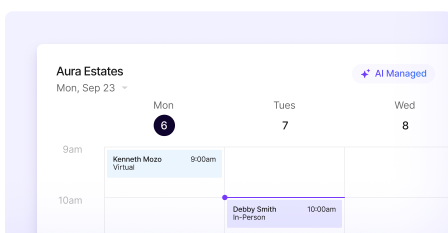

### Capture Leads Across Every Channel, 24/7

Ensure no lead slips through the cracks. LeasingAI responds to every inbound lead in over 50 languages across text, webchat, email, and voice within 5 minutes, even during off-hours.

### Connect Prospects to Properties

LeasingAI seamlessly integrates with your CRM and PMS, providing customized recommendations to prospects based on their preferences. Your AI assistant manages pre-screening and tour scheduling, ensuring prospects move efficiently through the funnel and converting 125% more prospects to tour.

### Schedule Tours and Streamline Follow-ups

With seamless CRM integration, Elise converts leads into tours—whether self-guided, virtual, or in-person. Automated outbound confirmations reduce no-shows resulting in a 30% increase in lead-to-lease.
